## Imaging Report

|                    |                |            |                   |
|--------------------|----------------|------------|-------------------|
| Patient Name       | Ho My Trang    | MRN        | MRN-0069          |
| DOB                | 2004-05-27     | Gender     | Female            |
| Encounter Date     | 2026-03-19     | Department | Internal Medicine |
| Attending Provider | Dr. Dev Doctor | Status     | active            |

Synthetic Data Warning: This document is generated for software testing, OCR parsing, chunking, embedding, access-control validation, and Graph RAG demonstrations. It is not valid medical advice and must not be used for patient care.

## Imaging Modality

Knee X-ray

## Clinical Indication

Evaluation of fatigue, elevated home glucose, and intermittent dizziness with department-specific concern in Internal Medicine.

## Findings

Mild tricompartmental degenerative change without acute fracture or dislocation.

## Impression

No immediately life-threatening imaging finding is identified in this synthetic report. Correlate with clinical presentation and lab trend.

# Structured Imaging Extraction Hints

## Relevant Entities

Patient: Ho My Trang; MRN: MRN-0069; modality: Knee X-ray; diagnosis context: type 2 diabetes mellitus, hypertension, chronic kidney disease risk.

## Follow-up Recommendation

Review imaging in clinical context. Escalate if imaging findings conflict with worsening symptoms, unstable vitals, or abnormal neurologic status.
